## Power & Mileage Progammmers

### Edge Evolution

The Evolution provides 3 power levels designed to extract the most performance from the fuel you are using. These levels include: Transmission only, Towing and High Performance. Up to four of 19 different parameters can be displayed at one time in an easy to read format. The Evolution monitors vital engine data such as engine load, engine oil temp, coolant temp and transmission fluid temp, just to name a few.

### Bully Dog Triple Dog GT

The Triple Dog GT is an all in one; adjustable tuner, gauge, safety monitor and driving coach. The tuner feature adds power and economy mapping. As a gauge it allows the user to monitor over 20 vehicle functions and parameters. As a driving coach the GT will give the user real time driving advice in order to maximize fuel economy up to 37%.

### Bully Dog Triple Dog E3

Triple Dog E3 diesel downloaders are designed to provide added performance and economy. Everything packed into these downloaders, from the engine tuning to the speed limiter function, is designed to help you achieve better fuel economy and performance gains. Bully Dog's Triple Dog E3 diesel downloaders carry one engine tuner that's adjustable on the fly, so you can toggle back and forth between the performance tune and the stock power level.

### Superchips Cortex

Cortex from Superchips is the meanest street-legal programmer you can buy. Cortex pumps up the performance by as much as 318 lbs.-ft of torque and 154 horsepower at the rear wheels! That's more torque than your neighbor's wimpy Kia makes in total. And the engineers at Superchips give you more power throughout the driving range, not just at wide-open throttle.

Diesel  
or Gas  
**479.95**

### Superchips Mileage XS

Electronic mileage programmers are even more important as fuel prices increase. Each calibration is validated for accurate results so you can buy and drive with confidence. Recalibrate speedometer, odometer, and shift points to compensate for wheel/tire upgrades. Retrieve and clear Check Engine codes. Get free online updates at Superchips.com

### Hypertech Max Energy

Max Energy Tuning extracts every bit of energy possible out of every molecule of fuel giving you more miles at part-throttle and and more power at wide-open throttle.

Diesel  
or Gas  
**399.95**

- Easy plug-and-play installation
- Optimize horsepower and torque
- Improve fuel economy
